

TELLS NEEDS OF BOY IN 'TEEN AGE

Church School Solves Problem Says International Head

An authority on boys and the evil which confronts every youth in John L. Alexander, superintendent of the teen age division of the International Sunday School association, who will deliver an address at the Upper Peninsula Boy's Conference in Escanaba this month, speaking to the Chicago Civic association of Chicago recently on the subject of "Boys in Their Teen Age," Mr. Alexander said:

"The old home is not what it used to be. He said that the Sunday school is not what it used to be, either. The civic and economic revolution has swept away the old home, with its church and its Sunday school, and the telephone now supercedes; also the family worship religious training. The Sunday school is not now for 'kids and women,' he said, for while the Y. M. C. A. up to five years ago was the greatest men's organization of the sort, with a membership in North America of 575,000 men, there are now enrolled in the church schools, formerly Sunday schools, 3,500,000 men.

The solution of the religious training need for boys and girls in the teen age, Mr. Alexander has discovered, is the church school with religious education courses parallel to the secular courses in the public schools. The church will thus furnish the religious education and the schools the secular education, all being harmonized in a great whole through the agency of the Sunday school union, which is non-sectarian and interdenominational.

Money Value of Boys.
In one Colorado city, Mr. Alexander said, one-sixteenth of all the credits for high school diplomas are given for marks in the church schools. In some state teachers' schools, the pupils receive similar credits for teaching religious courses in the church schools. So each class of schools is working after its own part, yet all are a part of the whole, said Mr. Alexander.

Quoting figures, Mr. Alexander impressed on the business men the tremendous money value today of the boys and girls, and that if boys and girls are to be a real civic asset, they have to be developed like any other undeveloped asset.

"Every free institution in North America has been built on moral and religious convictions of the early pioneers," said Mr. Alexander. "If these institutions are to be maintained, the boys and girls must be trained, as all problems are solved in the 'teen years. The high-water mark of what we call civilization comes at 14½ years. The high-water mark of criminality comes at 14½ years, and that is the time when boys and girls are leaving the schools in droves, so it is the high-water mark of vocational life. In that age religious conditions must be maintained."

"For the first time in the world, religious instruction has been barred from the schools. We have no business to take the money of taxpayers and put it into any system of religious training. The church has business enough to handle in its Sunday schools, or church schools, if it ever wakes up. It is the business of the church schools to get these religious convictions into the youth of today. If ever there was a time when there is need of religious convictions, it is now. The sex problem is in the 'teen age, and religious convictions are needed to give poise and balance at that time."

HOUSE TO HEAR 'ANTIS.'

Washington, D. C., March 2.—The House Judiciary committee has set aside tomorrow for listening to the arguments of those opposed to the proposed Constitutional amendment granting suffrage to women. It is expected that a large number of the anti-suffragists will attend the hearing.

Pennsylvania forest reserves paid the state last year over \$15,000 in timber sales.

SICK, SOUR STOMACH, INDIGESTION OR GAS

Take "Pape's Diapiesin" and in five minutes you'll wonder what became of misery in stomach.

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you pour into has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and acts things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.—Advertisement.

"CHAIN PRAYER" REVIVED.

Many Calumet People Receive Appeals Through the Mail.

Driven from the mails five years ago, the "chain prayer" letters are flooding Calumet again. A week ago one of these letters developed. It requested that the prayer be copied nine times by the recipient and forwarded to nine persons, each letter written to contain the same request. As a consequence, the entire district is inundated with these prayer letters.

"Yes," said a local pastor today, "I have seen several copies of the 'prayer letter.' There is nothing objectionable in the prayer itself, but it is followed by an implied threat that if the person does not obey the injunction to copy and forward the letter the recipient will encounter unnamed misfortunes. 'One member of my congregation received as many as seven copies of the letter, which indicates how widespread is this 'chain prayer' movement in the city. I have advised all members of my congregation to ignore the letters, and will repeat the injunction from the pulpit, if the letters continue.'"

These 'chain prayer' letters already have begun to burden the mails, and it is probably a prohibitive order against them will be asked of the postal department.

CHINESE-AMERICANS TO TEST RIGHTS IN CHICAGO.

Chicago, March 2.—The Chinese-American club of Chicago was incorporated today with the object of establishing the rights of Chinese who are born in America of domiciled parents. More than 400 members of the organization will go to the polls here March 17 and demand that they be listed as electors.

"If the Chinese are challenged the courts will be appealed to. We will cite a decision in the supreme court of the United States in which it is declared that a Chinese is entitled to citizenship when he is born of domiciled parents," asserted Charles F. Hill, attorney for the club.

New York United Hebrew Charities last year spent \$500,000 in relieving distress.

St. Louis now has a motor bus line in operation between Fourth and Cahanne streets.

INQUEST BRINGS OUT NEW FACTS

Calumet Man Murdered in Bisbee Was Shot in Back

The remains of the late Louis Capello, formerly of Calumet, who was murdered last Sunday in Bisbee, Arizona, arrived here this morning.

The funeral services will be held tomorrow morning at the St. Mary's Italian church, with interment in Lake View.

Further facts concerning the killing of Capello, were revealed at the inquest, mention of which is made in Wednesday's Bisbee Review, which has just been received, as follows:

"Death from a bullet wound made by a shot fired from a .38-caliber revolver in the hands of Harry McCoon" was the verdict of the jury which heard testimony yesterday afternoon at the inquest conducted by Coroner Walter Thomas to determine the cause of death of Louis Capello, on Sunday at the Deloit home on School Hill.

McCoon, the murderer, was not present. His arraignment on Sunday night, under a system of the statutes providing for such action in advance of the holding of inquest, and his waiving at that time of preliminary examination, did away with the necessity for his again being brought to the bar of justice before his final arraignment in the superior court.

The testimony before the coroner established several vital points. Among these was the fact that Capello was shot in the back and not in the chest, as had been generally supposed. Dr. Hawley testified that examination of the wound left no doubt that Capello was fired upon after he turned from McCoon. An eye witness to the shooting of Capello was produced, fully establishing the case of the prosecution. A witness also testified that McCoon said upon arrest that he was glad he had killed Capello; that he intended doing so. Testimony was also given that McCoon had threatened the life of Mrs. Deloit and the lives of her children on two occasions prior to the shooting.

The body of Capello was sent last evening to his mother at Calumet, Mich., in response to a telegram from her instructing. She will come here later to urge the prosecution of the murderer of her son. At the depot last evening the platform was crowded with Capello's friends, gathered to pay their last respects. No services were held over the body but the assemblage at the depot was an earnest demonstration of the esteem in which the man had been held by many friends in the district.

Of the wounded in the tragedy of Sunday, the condition of Mrs. Deloit was less hopeful yesterday. The physicians found a clot of blood gathered on the lungs and pneumonia incipient. Her pitifully wounded head was also worse than the day before in its general aspect. Concerning Mrs. Deloit, it was learned yesterday that her reported marriage some years ago to McCoon was not true. The trouble of Sunday arose from the fact that she had persistently declined the attentions of McCoon and his pleas that she marry him.

A demand on the man six weeks before that he cease his annoyance, had put him in a fury and he at that time threatened to kill Mrs. Deloit, having a gun in his hand. Two weeks later he repeated, in which to consider the matter. If he did not then receive a favorable answer he would kill her and her children, whom he said were responsible for her action. He did not again call at the house until four weeks later, which was last Sunday. This was brought out in the testimony yesterday of Miss Lucy Deloit, who was present at the interview of four weeks ago, when the attitude of McCoon terrified her and convinced her that he would try to carry out his threat on his next visit. Her mother held that McCoon was too cowardly to try violence and to avoid

WOMAN'S BEAUTY NO SECRET.

It all lies in the care she bestows upon herself and in keeping at bay those dread ills peculiar to her sex. The flashing eye, the elastic step and the clear complexion never accompany organic troubles. The distressed expression, languid, headaches and mental depression are only the tell tale symptoms. Women so troubled should take Lydia E. Pinkham's Vegetable Compound, that simple remedy made from roots and herbs and restore their health to a normal condition.—Advertisement.

notoriety urged that he be left alone.

Thomas White, the third person wounded by McCoon, was yesterday getting along well at the C. & A. hospital, where he saw several friends. The bullet which struck him in the back deflected around the 11th rib, which alone saved his life. Had it carried its first course he would have been instantly killed.

RABBIT SEASON CLOSED.

FISHING NEXT IN ORDER

BUNNY SAFE FROM SLAUGHTER UNTIL SEPTEMBER 1—WAS SUCCESSFUL SEASON.

The rabbit no longer is in danger of losing his life, or at least until September 1 he is protected from the onslaught of hunters, the season closing last night at midnight. While the general opinion was that the season ended Saturday night with the end of the month, the official close was March 1, the law specifying from Sept. 1 to March 1, inclusive.

Generally the rabbit season was a success to hunters who were able to visit their favorite grounds by means other than a railway. On the other hand, Laurium sportsmen who made Keweenaw their destination, were unable to enjoy the sport by the removal of the Keweenaw Central trains. As a consequence, Keweenaw residents generally profited by the absence of hunters from Houghton county.

Nimrods next will turn their attention toward fishing, the open season for which is May 1st. Apropos of the arrival of that date, sportsmen are discussing the new game laws which became effective this year. The anglers' license act particularly has received much discussion and some confusion as to the interpretation of the law exists. It may be explained, however, that only non-residents will be compelled to seek a license. A permit to catch brook trout will cost non-residents of the state a fee of \$3. This sum will carry a permit to catch fish of any species while at \$1 permit is confined to fish other than trout.

To Plant Many Fish.

That the lakes and rivers in the upper peninsula will be well supplied with game fish for the anglers in future years is evident from reports from Harry H. Mars, superintendent of the Soo fish hatchery. Millions of fish that are now in the hatchery will be placed in lakes and rivers in this region the coming spring, under the direction of the state fish commission.

The greater number of fish to be planted are white fish and lake trout, which will be distributed in Lake Superior, Huron and Michigan. In St. Mary's river at the Soo, 100,000 landlocked salmon will be placed. Over 2,500,000 brook trout will be distributed among the streams of the upper peninsula.

A law which went into effect January 1, 1914, prohibits the catching of bass or rockfish unless a license, costing one dollar, is first procured.

Firms You Ought to Know

Every citizen of the Copper Country owes much to his fellows. None is big enough to stand alone, but must in a large measure depend upon his fellows for co-operation.

Every dollar spent by Copper Country people in the Copper Country pays large dividends both to the individual and to the Community. Help the local business men to meet the pay rolls which do so much to make the Copper Country what it is. "DO IT FOR THE COPPER COUNTRY" is indeed worth while and brings all of us closely together in our mutual wish to make a BIGGER, BETTER, GREATER COPPER COUNTRY.
